double drop down with the help of custom fields but when i am adding any custom field it adds that filed in taxonomy term of site author. i am trying to add a taxonomy term which will contain two dropdown list with the dropdown menu's name as sub category name of the parent term. A: I think it is just need to update custom fields value? Q: Transfer a folder from Windows to Ubuntu I have a drive plugged into my computer and my computer can see it as a drive when I select "My Computer". (D:) I'm wondering if

there's a way to transfer the contents of my Windows Drive to Ubuntu (the contents of my D: drive) without physically connecting the drive itself. Any suggestions? A: Drag the directory to nautilus or finder and it will copy the contents.

Effect of moxonidine and moxonidine-like compounds on N-methyl-D-aspartate-evoked responses of rat preoptic neurons. In 86 neurons (nucleus preopticus) in urethane-anaesthetized and superfused rats, N-methyl-D-aspartate (NMDA) evoked neuronal

responses were blocked by the alpha-2 adrenoceptor agonist moxonidine (alpha-MT). The alpha-2 adrenoceptor antagonist yohimbine antagonized the effect of alpha-MT. alpha-MT and three moxonidine-like compounds, namely moxonidine-sulfate, (+/-)-(+/-)-sulfamonomethyl-2-imidazolidinone (SM-IMI) and [alpha-(3-cyclopropyl-
