External graphics or forms (e.g., Microsoft PowerPoint) are often used to create or update drawings. It is possible to obtain the graphic or form data into a spreadsheet program and from there, to format the graphic or form into a format that can be easily imported into AutoCAD. Graphic objects are created with an editing interface that has a common set of graphics controls, including geometry tools (extrude, cut, snap, fillet, etc.). Technical support The Autodesk Technical support department is active on Twitter and has also published many videos which they have uploaded on YouTube. Controversies The Autodesk campus in San Rafael, California, is subject to a "green" political controversy involving its \$145 million, 15-story headquarters, known as the Skyblock. There are concerns over the planned campus' environmental impact on the city, and it has been subject to protests from local residents. Many petitions have been submitted to the city council, and residents have been staging public events. In September 2014, a video showing an Autodesk engineer showing an Autodesk employee how to commit suicide was posted on YouTube by "Demolition Danny". Autodesk did not find this act to be representative of their company and did not fire the employee. In June 2019, Autodesk was criticized for its handling of sexual harassment claims.

For some reason I am just sitting here and watching this morning show with my husband. It's been a long time since I've watched a morning show. I think we have the first show on in the morning. It looks like they are going to have two big stories today: 1. What happens to half of the population of California. 2. Abortion. I feel like they are just going to report the facts and let people make up their own minds. I'm not really interested in watching a debate. However, I will say it looks like Barbara Boxer is introducing the legislation that will make this happen. She is, of course, pro-abortion and pro-reform. I'm interested to see what the opposition says and what they do. I'm curious to see how they fight back and if they change their minds on this.
