I can not use CLLocationCoordinate2D to identify the point, because in this library, there are no any latitude and longitude data. So, how can I remove a specific marker from the MapView?  
A: Check out MapKit's MKMapViewDelegate protocol and add that to your view controller as an MKMapViewDelegate property. Then implement one of these methods to detect when a new marker is added to the map. Then, you can remove that marker in the same method. - (void)mapView:(MKMapView \*)mapView annotationView:(MKAnnotationView \*)view calloutAccessoryControlTapped:(UIControl \*)control { // To detect when a new annotation view is added, you can use this. // If the annotation view is the current annotation view, then this method won't be called. if (view!= mapView.annotations) { NSLog(@"Removed annotation view %@", view); // Remove the annotation view from the map. [mapView removeAnnotation:view.annotation]; } }

I have to install it but when I click on install I get a error message and when I try to repair it I get some errors like missing files and missing dll's. help? A: The main issues are that the folder path is incorrect, and the file paths of the installer and the key installer are different (I think this is because your various versions of Autocad are in different locations, but it isn't obvious). I suggest you download an uninstaller to see which location these files were installed to (there will be a line in the registry, something like

HKEY\_LOCAL\_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall or HKEY\_CURRENT\_USER\Software\Microsoft\Windows\CurrentVersion\Uninstall) and then do a search for the following files (or something similar): Autocad18.exe CAM2014AddOn.inf hsmworks.inf Open the registry and navigate to the following location:

HKEY\_LOCAL\_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall or HKEY\_CURRENT\_USER\Software\Microsoft\Windows\CurrentVersion\Uninstall and search for "Autocad" (as a string) or "AutoCAD" (as a string). You can now use one of the uninstallers to uninstall the full version of Autocad and just use the installers on the disc to install the cracked version. Our Lady of Guadalupe Catholic Church (Darlington, Pennsylvania) Our Lady of Guadalupe Catholic Church in Darlington, Pennsylvania, in the Roman Catholic Archdiocese of Philadelphia, was designed by American architect John F. Evans and built between 1910 and 1915. The church building was added to the National Register of Historic Places in 1998.
